

TABLE OF CONTENTS

Quick Summary of Major Sections

Introduction. Provides details on this book’s information sources; tips for job seekers, students, career changers, and employers on using this book; and pointers for interpreting the job descriptions. *Begins on page 1.*

The Job Descriptions. The book’s main section, presenting more than 6,100 job descriptions. It organizes all descriptions under the major job titles in the “List of Major Jobs” (starting at right). *Begins on page 9.*

Appendix A: Tomorrow’s Jobs. Gives a brief overview of major trends in occupations and industries. *Begins on page 813.*

Appendix B: OOH Job Titles Organized by Personality Codes. Organizes all OOH jobs by personality codes. *Begins on page 821.*

Indexes. This book has two indexes—one for major job titles and one for more-specific job titles. The “Index of Major Job Titles” lists all *Occupational Outlook Handbook* jobs described in this book. For most readers, this is the only index you need to find major jobs along with their complete descriptions. An example of a major job title is “computer software engineers.” The “Index of More-Specific Job Titles” lists all jobs described in this book from the Occupational Information Network (O*NET) database and the *Dictionary of Occupational Titles*. This second index is helpful when you are researching very specific jobs or need brief job descriptions. Examples of more-specific jobs are “computer software engineers, applications,” and “computer software engineers, systems software.” *The indexes start on page 829.*

List of Major Jobs

The major job titles that follow are arranged in groupings of related jobs. Find one or more jobs that interest you, and then turn to the page indicated for a complete description, followed by brief descriptions of more-specific related jobs.
